

Our Design Staff is very good at helping you choose the perfect carpet or wood flooring. By appointment one of our designers can come to your home and measure and advise on color and style of flooring. This service ends up being free with purchase. We do charge \$65 up front but we then rebate this back to any purchase so the measure ends up being free. If you want to get a ball park price before you sign up for this in-home service then just bring in your basic dimensions of each room and we can give you a free verbal estimate that usually is within 10% of being precise.
